---------------------------------	-------

Remember the price you see is the price you pay. There are no hidden extra costs for deliveries in the UK.

Nutri-Link Ltd, founded in 1996 is a privately owned company managed and directed by experienced, practicing healthcare professionals. Our founders have a combined experience of over 48 years in Clinical Nutrition, Naturopathy and Osteopathy providing Nutri-Link Ltd with a unique, specialist understanding of your needs in day-to-day practice.

In particular, we believe you need great service, products of the highest efficacy and quality, up to date education, clinical information and a PRACTITIONER ONLY SUPPLIER.

Nutri-Link Ltd is a dedicated 'Healthcare Practitioner' company; we do not 'tag' a practitioner product line and ethos on the back of a retail business. Our product lines are aimed directly at the practicing clinician, and we provide over 600 professional supplements. This gives us the largest range of professional supplements sold by a practitioner dedicated company in the UK.

We are the distributors for North America's most innovative food supplement manufacturers and formulators. Our ongoing search for advanced, effective nutritional compounds to meet the needs of your constantly evolving clinical life, and the intellectual desire to continue with post graduate education brings us into contact with many of the world's most innovative clinicians.

This interaction with leaders in nutritional medicine has allowed us to evolve a special relationship with world-leading research and manufacturing companies. Our two largest manufacturers - ALLERGY RESEARCH GROUP® and BIOTICS RESEARCH CORPORATION® have a combined experience of over 56 years of delivering medical standard products, and lead the industry with innovative formulas.

NORDIC NATURALS® hold the number one position within the USA and Europe for laboratory proven purity and efficacy with its fantastic range of essential fatty acids. It is clear

through our own research and extensive investigations that they are the ONLY company to deliver truly contaminant-free products, used by university and hospital research centres throughout the world.

BODYBIO®, E-LYTES®, BIOTECH PHARMACAL®, PERSONALISED METABOLIC NUTRITION®, SWEETLIFE®... are unique suppliers of specialist products, selected by our founders to meet the needs of specific imbalances in your patients.

Research Based, Clinically Proven

The foundations of our manufacturing companies are laid upon solid scientific principles. Experienced and innovative professionals scrutinise research papers, examine clinical needs, and work with many of the leading nutrition-orientated practitioners in the world to identify food-derived nutrients, essential fatty acids, probiotics, phyto-nutrients and unique compounds vital for optimal health. They then develop, formulate and test before supplying you with the product for your patients' needs.

The Finest Ingredients, Quality Controlled

All our manufacturing companies go to extraordinary lengths to ensure that the ingredients used are of the finest quality, from certified suppliers across the world. Unlike most manufacturers, independent third party and in-house analysis are then conducted on the raw materials to be sure that each batch meets the exacting standards required.

Manufacturing is undertaken in a specialist environment and checked by PhD qualified personnel to be sure they meet each company's rigorous quality controls as well as those imposed by government agencies. Independent laboratory analysis as well as in-house analysis is carried out throughout the manufacturing process to provide you, the healthcare provider, with the confidence that these products contain the ingredients stated on the label and are worthy of your personal recommendation.

Why choose us?

Nutri-Link provides excellent customer service and distribution for you and your patients

Nutri-Link Ltd's products are trusted and recommended every day by Doctors, Nutritionists and Healthcare professionals from the UK and around the world. As such, thousands of clinicians who understand the role of quality nutrition in the generation and maintenance of health have helped their patients recover their vitality and well-being through the adjunctive use of supplements made by ALLERGY RESEARCH GROUP®, BIOTICS RESEARCH CORPORATION®, NORDIC NATURALS® and BODYBIO®. We are proud to represent these companies and look forward to helping you achieve the best in healthcare for your patients.

Additional Products

Our founders constantly review hundreds of research journals and regularly meet with esteemed colleagues. This means that we periodically identify and source unique products to meet a specific demand. These are normally provided by small specialist companies. You can be sure that these products meet the same high quality and efficacy requirements that are provided by our main manufacturers.

Allergy Research Group®

Dr Stephen Levine PhD founded the Allergy Research Group® in 1979 when he developed a range of sophisticated hypoallergenic supplements. Over 32 years later the company enjoys a global reputation for its high quality, efficacious and pure products, which currently number over 250. Dr Levine continues to work tirelessly to bring the latest ideas in nutritional medicine to clinicians and collaborates closely with many of the eminent functional medicine physicians around the world in formulating and developing new nutritional supplements. Their constant development of innovative new lines means that Allergy Research Group® is always at the leading edge of nutritional supplement development, and that new products appear on a regular basis.

Biotics Research Corporation®

A remarkably effective range of over 200 products from the Texas-based Biotics Research Corporation® provides a range of supplements built on quality and innovation. Biotics Research Corporation® produces exemplary products and allies this with the highest standards of production and raw material selection; they are a licensed pharmaceutical company that only manufacture food supplements. Established for over 30 years, Biotics Research's® on-site manufacturing facilities employ rigorous quality control procedures and a dedicated in-house research team. The use of pure and applied research combined with their close links with many varied areas in the world of nutrition and their support of practitioner education programmes ensures effective and clinically relevant supplements.

Nordic Naturals®

Nordic Naturals® core business is Omega 3 Fatty Acids, where their only focus is to deliver ultrapure, fresh and health promoting omega 3 oils that taste great. "All batches are independently, third party lab tested to ensure and confirm purity and freshness."

Nordic Naturals® manufacture all products in Norway, where they adhere to the highest manufacturing standards guaranteeing exceptional product Purity and Freshness levels. The quality level exceeds the Norwegian Medicinal Standard, European Pharmacopoeia Standards and Council for Responsible Nutrition requirements. They also adhere to the GMP (Good Manufacturing Practices) facility standard, and utilise a proprietary nitrogen environment to achieve industry leading freshness levels.

Nordic Naturals'® products are molecularly distilled utilising the latest distillation technology and yielding positively zero Trans Fats. This process guarantees the removal of any heavy metals (lead, mercury, etc.) PCB's and dioxins. As an example, Nordic Naturals'® dioxin level is estimated to be the lowest in the world. Low heat and ultra short residence time is used during the distillation process to ensure positively no damage to the oil. A final enzyme process is applied to ensure a completely repeat free (i.e. burp free) product. This is why children and teenagers of all ages love these products.

Raw Materials

Nordic Naturals® use only wild fish (arctic cod, mackerel, sardines, and anchovies), that are low on the food chain (to minimise potential impurities) and are naturally high in Omega 3 fatty acids. Nordic Naturals® are committed to sustainable fishing and use positively no raw material from the open market or overfished "hot spots."

BodyBio®

Started in 1995 by Dr Patricia Kane, BodyBio® and E-Lytes® provide a mix of innovative specialist fatty acids and other nutrients as well as a complex combination of blood test reports and fatty acid analysis. The protocols developed by Dr Kane have provided patients all over the world with successful resolution or diminution of their symptoms. Her remarkable understanding of complex fatty acid chemistry provides clinicians with a unique opportunity to effect positive changes in complex patients.

For further information please contact our Customer Service Support Team on: info@nutri-linkltd.co.uk

The clinician of the future will increasingly use laboratory tests to identify the nutritional needs of the client and to assess the effectiveness of the intervention.

General Disclaimer

The information contained in our catalogues is obtained from sources believed to be reliable, but its accuracy cannot be guaranteed. All material in the catalogues is provided for information only and should not be construed as medical advice or instruction. No action or inaction should be taken based solely on the contents of these catalogues. Instead, healthcare professionals should combine this information with their skills and training before making a decision. The material in these catalogues has not necessarily been approved by the US FDA or the UK MHRA. The products discussed are not intended to diagnose, treat, cure or prevent any disease.

As we are constantly improving our products and services, Nutri-Link reserves the right to change or amend any product, formulation or price without prior notice. We also reserve the right not to stock certain products described in the catalogue, if they do not meet MHRA rules.

General Caution

- Where individuals are on medication they should consult with their primary healthcare provider before taking nutritional supplements.
- When individuals are pregnant or lactating always consult their healthcare provider before recommending nutritional supplements.
- Unless otherwise stated the supplements in this price list are for oral consumption only.

Nutri-Link... here to help you achieve the best outcome for your patients.

Customer Care

Nutri-Link understands that your time and that of your patients is precious. We aim to provide an effective and caring support team operating when you need us to help you maintain and evolve the overall care you provide your patients.

As clinicians, the founders recognise the importance of next day delivery and accurate, relevant technical information. As a company that imports from the United States we are sometimes subject to the vagaries of international shipping but work constantly to ensure this is kept to an absolute minimum.

We deliver efficient and caring personal support to your clinical life.

Laboratory Assessments

Nutri-Link educates practitioners about and facilitates functional laboratory tests. We select tests relevant to the needs of the nutrition professional and teach their application, results interpretation and relevant interventions.

Nutri-Link works with laboratories in the UK, EU and the USA to bring innovative and clinically pertinent tests to practitioners who use nutritional medicine.

It is our aim to ensure attendees of our training seminars leave with the confidence and comprehension necessary to facilitate correct and effective use of investigative functional tests.

Practitioner Education

Nutri-Link is recognised by the Royal College of Physicians, the Complementary Medicine Association and the British Association of Nutritional Therapists amongst others as a provider of post graduate education. The founders have studied Functional Medicine since its inception 20 years ago, with over 30 trips to the USA. They have implemented FM into clinical practice and taught its concepts for nearly two decades. Michael Ash was a plenary and workshop presenter at the IFM Symposium in 2009 and 2011. We help practitioners involved in the healthcare of their patients through nutrition to expand their knowledge.

clinical skills through the provision of scientifically researched, effective advice and strategies. Well known for our attention to detail and regularly recording over 95% satisfaction in our lecture provision we consider that post graduate education is a cornerstone of our commitment to helping you achieve the best for your patients.

We look forward to meeting you at one of our regular seminars.

Practitioner Support

We now have a new Practitioner Support telephone number:

+44 (0) 8458 94 97 67

We offer direct practitioner assistance relating to a patient's care or any other technical matter.

After many decades in practice we know only too well how confusing patients and their cases can sometimes be. We are here to help you achieve the best outcome for your patients.

We have further clinical information available through our practitioner support programme to help you understand all you need to know about our products.

Our web site www.nutri-linkltd.co.uk and our technical staff are here to help you make the best decision for you and your patient.

Please contact us by telephone, fax, or e mail on:

Telephone: +44 (0) 8450 760 402

Practitioner Support: +44 (0) 8458 94 97 67

Terms of business

Over 600 highly effective professional supplements, only available to healthcare professionals.

All prices and details contained within this catalogue are correct at time of going to print and may be subject to change without notice. E&O.E.

Nutri-Link is a trade name of Nutri-Link Limited.

Trading Office:

Nutri-Link Ltd
Nutrition House
24 Milber Trading Estate
Newton Abbot
Devon
TQ12 4SG

Registered Office:

Nutri-Link Ltd
Southgate House
59 Magdalen Street
Exeter
Devon
EX2 4HY

Registered in England Number:

3597873

UK VAT Registration Number:

723 2087 58

Payment for orders

All orders will only be accepted together with payment made by valid and effective cheque, postal order, Credit/Debit Card or BACS.

For those clients with an account, payment must be made within 14 days of statement. Failure to meet this may result in further orders not being accepted.

In addition, late payment as stated in the Late Payment of Commercial Debts (Interest) Act 1998 will incur an interest charge of 8% above Bank of England base rate per month or part of. The Purchaser will also pay any collection costs, including reasonable legal fees to recover the outstanding balance. (£10 fee for returned cheques.)

Payment may only be made in Pounds Sterling (GBP).

VAT

Value Added Tax is charged on all items (where applicable) at the Applicable Rate on the day of order placement. Unless a valid VAT Exemption number is given when placing your order. All orders from outside the EU (including the Channel Islands) are exempt of VAT.

All Prices shown in this Price List include VAT where applicable.

Returns

In the event of the Purchaser not being entirely satisfied with their purchase, the following conditions apply:

- Firstly, telephone a Customer Service Team Member, on: 08450 760 402 advising of the problem. A valid reason why the goods are to be returned must be made. When accepted, obtain a returns number, include this on all returning documents/packages.
- The letter/package is to be clearly addressed to 'Customer Service Department'. The returned goods must be received no later than 7 days from the date of delivery.

- We may charge the Purchaser a restocking or recycling charge. This will be 15% of the invoice value.
- All the items that the Purchaser is returning are to be in their original packing and be unopened and must be accompanied with a copy of the original invoice.

We will not accept goods:

Which have been damaged because of improper handling or abuse, and/or

Which have partly been opened, partly used, or from which the seals or labels have been removed or tampered with.

Should the Purchaser fail to observe any of the above points this will result in credit/refund not being issued.

All goods are returned at the Purchaser's responsibility, unless incorrect goods selection and shipping was made by Nutri-Link. We suggest that both certificates of postage and adequate insurance is sought. We accept no responsibility for goods lost during return transit.

These conditions do not affect your statutory rights.

Claims

Breakages and spoiled goods must be notified immediately. Non-arrival of goods must be notified within 5 working days of placing your order.

Sales and Pricing

Nutri-Link will only wholesale to practitioners. Registered patients of practitioners can order direct at retail prices. Nutri-Link reserves the right to alter prices without notice.

Samples

All samples are 75p (Trade)

For further information please contact our Customer Service Support Team on: info@nutri-linkltd.co.uk

Four easy ways to order:

By telephone:

+44 (0)8450 760 402

Voice Mail service out of office hours.

To have your order personally taken, telephone during office hours:

8.30am to 5.30 pm Monday to Friday.

Out of office hours you may leave your order on the 24 hour voice mail, quoting your name and telephone number

By facsimile:

+44 (0)8450 760 403

Orders can be faxed 24 hours a day.

By e-mail: (non secure)

orders@nutri-linkltd.co.uk

Via our online purchasing on:

www.nutri-linkltd.co.uk

(coming soon)

Payments:

We require payment at the time of order. The easiest and simplest way is to use your credit or debit card.

Payments can be made by Maestro, MasterCard, Visa, BACS, American Express*, PayPal*, postal orders or cheque.

* American Express & PayPal surcharges apply

Please have your card ready before telephoning. You will be asked for your card number, expiry date and issue number with Maestro.

Delivery

We aim to dispatch all orders placed by 2pm on the same day.

All orders are sent by FIRST CLASS post, parcel post or special delivery

In the UK, ALL orders are sent FREE to practitioners or their patients.

European and worldwide deliveries

Outside the UK, cost is as applied by the chosen courier, plus insurance.

Direct order and supply to patients

Many practitioners prefer to ask their patients to order direct. This saves you valuable time, cuts down on the stock you hold, reduces cash outlay and minimises paperwork. We will send the products direct to your patients, subsequent to your instruction. Please call for more information.

Commission

Nutri-Link pays up to 28% commission to practitioners on patient recommendation, and our patient participation programme allows you to choose to pass on a percentage of your choice to selected patients if you wish. Payments are made monthly directly to your account. Please call for a free prescription pad.

Paper

In our effort to reduce paper waste we are moving towards a 'paper minimal' office and will be forwarding all statements and copy invoices by e-mail unless specifically requested not to do so.

EU legislation

As founder members of the Alliance for Natural Health and regular contributors to the expert committee, as well as co-claimants in the legal challenge to the UK government and the EU, we are well aware of the legal and political problems. As a company and clinicians we commit hundreds of hours and substantial funds to ensure that we and you keep access to effective products that are and should remain legal within the UK.

ALLERGY RESEARCH GROUP ALTERNATIVE PRODUCTS - FROM 1st MAY 2011

From the First of May 2011 to remain in compliance with the EU's new law of Herbal Products we have to remove the following products from sale. We include relevant suggestions for alternative products.

We are reformulating where we can and have prepared a replacement schedule for patients and practitioner assistance.

To learn more about what to do to protest to the EU about these draconian restrictions on your right to access botanical and nutrient products you have safely used for many years, we suggest you visit this web page:

<http://savenaturalhealth.eu/> and support the Alliance For Natural Health in their legal challenge.

DISCONTINUED PRODUCT	ALTERNATIVE PRODUCT SUGGESTIONS
